# This is Green Air

Presented by NASPR

# Green Clean Beam Green Clean Beam

**Trox** introduces a new chilled beam that is available with or without filters and with demountable coils for cleaning. Hospitals? Schools? Labs?

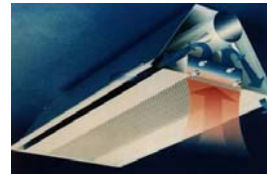

If you or your client have concerns about coils getting dirty and being hard to clean **Trox** has the solution.

Ruskin  
Screens

Ruskin \_ Louvers, dampers,  
Screens, Sound Attenuators

Passive beams, Active beams, Multi-service beams, Displacement Ventilation, Swirl diffusers, Auditorium step diffusers, constant volume valves, Raised floor diffusers, Under floor boxes. [Troxusa.com](http://Troxusa.com)

## Fuel Cells at ASHRAE Boston

Tuesday, October 9th, the ASHRAE Boston meeting will feature a speaker regarding Fuel Cells and Combined Heat and Power (CHP) systems.

High temp vs., Low temp  
Methane, propane, hydrogen  
Back-up systems  
Emergency generation

Jim Horwitz from Emerging Energy Research, Cambridge, MA will be speaking

## GREEN TECHNOLOGY

## Titus fan coils

Titus offers vertical stack fan coils with linear bar grilles which are used as the access door. No screws—No hinges, the grilles have a snap-in mechanism. Low profile, vertical or horizontal fan coils — with the features you want.

## Ruskin Flow Control

[Ruskin.com](http://Ruskin.com)

The Ruskin AMS050 is a flow control measuring station. It combines state of the art air flow measuring with Ruskin airfoil dampers to provide feedback and control of any air system. From 10"x10" to 60"x72" in single sections.
